

Mosogató

Sink

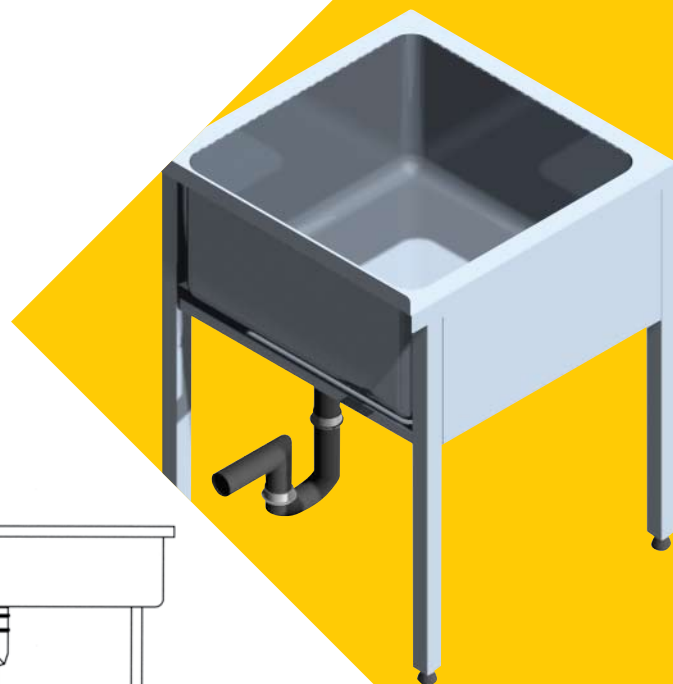

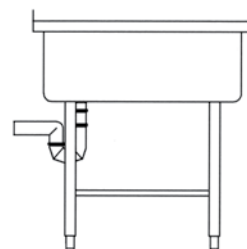

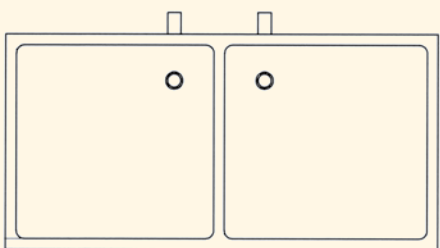

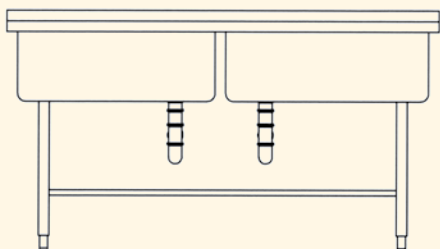

Spălător

Típusjel / Model / Cod grup: K-636

A K-636 típusú mosogató család, teljes egészében rozsdamentes kivitelben készül.

The K-636 series of sinks are manufactured entirely of stainless material.

Familia de spălătoare K-636 se realizează în totalitate din material inoxidabil.

Lábon álló, állítható lábmagassággal, különböző medencemérettel, ill. medenceszámmal. Külön rendelhető, minden medencemérethez csepptálca. Stabil építési forma jellemzi, mely ipari felhasználást is lehetővé tesz. Vízcsatlakozást nem tartalmaz.

They are of standing design, with adjustable length legs, with various basin sizes or number of basins, respectively. A dropper tray can be ordered with all sizes. Their stable construction enables the models for industrial application, too.

Sunt cu montare pe picior cu posibilitate de reglare a înălțimii, cu cuve de mărimi diferite respectiv cu număr diferit de cuve. Se comandă separat pentru fiecare dimensiuni de cuvă (tavă pentru scurgere). Datorită construcției stabile se poate utiliza și în zone industriale.

A műszaki fejlesztés érdekében a változtatás jogát fenntartjuk.
Right to change for the sake of technical development is reserved.
